RE: White Jack Uranium Mine
~~ACT/015/032~~
Emery County, Utah

Dear Mr. Lebel:

I apologize for the delay in responding to your November 25, 1981, letter regarding the status of the White Jack Uranium Mine. Due to a recent change in the location of our offices, your original correspondence was somehow temporarily misplaced, but has been found since our telephone conversation.

Unfortunately, your information from Mr. Lahusen is incorrect. Universal Uranium Company (Universal Fuels Company) did not furnish the Division with all the required information and therefore had received no permit to mine. The Division has no record of any other operator subsequently filing an application for this mine either.

Since you have indicated no intention of abandoning the claims and no activity is currently taking place realizing the present market conditions, as long as the mine openings are safely secured and the surface disturbances are in an environmentally stable condition, the Division will require no further information from Energy Benefits Exploration Corporation at this time.

Should a site inspection this spring indicate a need for further information or stabilization procedures, you will be contacted. Since Universal Fuels Company's plan was never approved by the Division, a new

application must be submitted. Please notify the Division at least three months prior to an anticipated resumption of mining activity in order to allow sufficient time for review of Energy Benefits Exploration Corporation's mining and reclamation plan.

If you have any questions, please feel free to call.

Sincerely,
